

TOLULOPE SHERIFF TAIWO

Software-focused Computer Science student combining hands-on IT operations experience with practical development skills to build reliable, efficient systems. Proven ability to troubleshoot real-world technical issues, automate manual workflows, and work with structured data at scale using JavaScript, Python, and SQL. Azure Fundamentals certified with working exposure to Microsoft Power Automate, bringing a strong systems mindset and the ability to quickly adapt to enterprise environments. Delivers clean, maintainable solutions and thrives in structured, production-driven settings where reliability and problem-solving are critical

EDUCATION

Bachelors in Computer Science
University Of Debrecen, Debrecen,
Hungary September 2022 - July 2025

KEY SKILLS

- Programming: JavaScript, Python, SQL
- Web Development: HTML, CSS, JavaScript
- Database Management: SQL (data querying, transformation, validation)
- Microsoft Tools: Advanced Excel, Power Automate (basic workflow automation)
- Cloud: Microsoft Azure Fundamentals (certified)
- Version Control: Git
- Data Tools: Pandas, NumPy, Tableau, Power BI

LANGUAGES

- English
- Hungarian (working proficiency)

PROFESSIONAL EXPERIENCE

Web Development Intern | March 2025 - May 2025

Lime Light Renhold AS, Oslo, Norway

- Developed responsive front-end components using HTML, CSS, and JavaScript
- Implemented interactive features and improved usability of internal web tools
- Collaborated using Git and participated in structured code reviews
- Worked in an agile development environment with iterative delivery cycles
- Debugged and resolved UI-related issues to improve application performance

IT Administrator | February 2019 - November 2021

ACCAT NG LTD, Lagos, Nigeria

- Maintained daily IT operations, ensuring system reliability and availability
- Diagnosed and resolved technical issues across systems and applications
- Designed and implemented automated workflows using Excel, reducing manual workload by 10+ hours weekly
- Supported staff with software usage and troubleshooting, improving operational efficiency
- Promoted cybersecurity awareness and best practices

TECHNICAL PROJECTS

Urban Coffee Sales Analysis (Python Application) I

- Built a data processing workflow using Python (Pandas) to handle 30,000+ records
- Implemented data validation logic to detect inconsistencies and missing values
- Structured data pipelines for transforming raw data into usable outputs

COVID-19 Global Data Analysis Dashboard I

- Wrote SQL queries to extract and aggregate large datasets

- ## Nashville Housing Data Cleaning (SQL-Based System) I

- ## CERTIFICATIONS

- ## ADDITIONAL INFORMATION

- Experience implementing workflow automation concepts using Microsoft Power Automate (learning project)
- Strong attention to detail, system reliability, and data accuracy
- Comfortable working in collaborative, version-controlled environments
- Motivated to build expertise in enterprise software systems, cloud technologies, and automation tools
